

Resources

Why would I use this feature?

Aviso allows advisors to share campus and community resources to help promote success with students. These resources include areas such as tutoring, financial aid/scholarships, counseling, transportation, and food pantry.

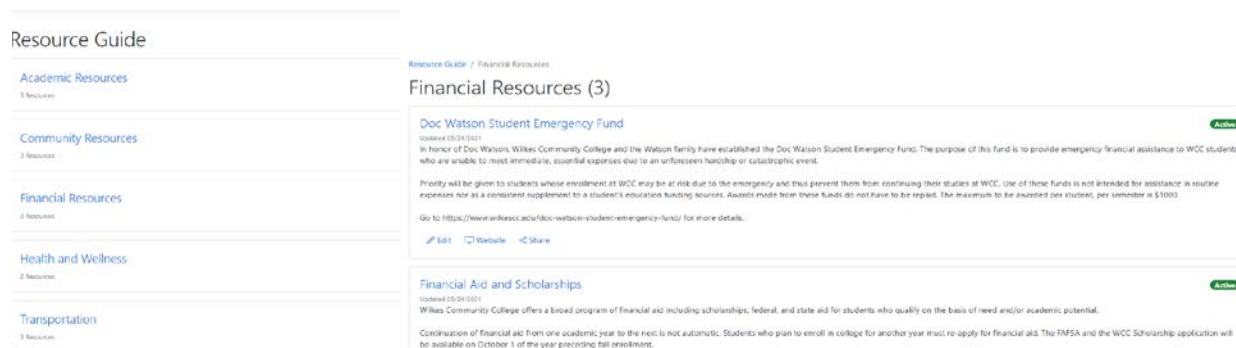

Sharing a Resource

Log into Aviso and click the “Resources” button on the top blue bar.

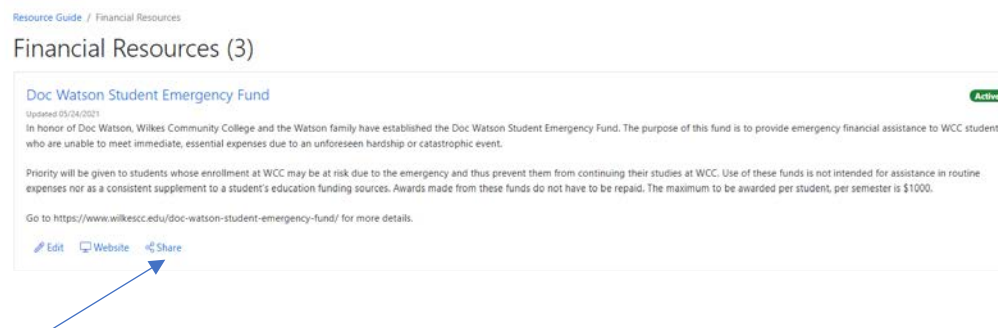

The Resource Guide is divided into multiple categories. Click on the appropriate category to review the resources available.

Each resource will include a brief description.

Clicking on the “Share” button will allow the user to share the resource directly to a student’s Aviso account.

Simply type in the student's name or ID number and click the share button. The student will then be notified that a resource has been shared with them.
